

Is there a protection benefit that can pay for itself?

Yes, it is called **Whole of Life Continuation Benefit**

Whole of Life Continuation Benefit is a benefit that can pay for itself and it can go further and pay for the policy altogether.

Receive a pay out on death (no matter when it occurs) of up to €50,000 that could:

- cover or even exceed the total cost of your protection policy
- help to clear loans
- pass on a lump sum to your next of kin
- pay for funeral expenses
- offer you more security & confidence that whenever death occurs, the benefit will be paid out even after the term of cover has ceased for other benefits

Most protection benefits only pay out if you die within a certain timeframe. A Whole of Life Continuation Benefit pays out a lump sum amount on your death whenever it occurs.
